## **Vinalines and Erria extend cooperation**

Vinalines and Erria have today signed a MOU at the headquarter of the Danish Shipowners' Association in Copenhagen, Denmark.

Vinalines & Erria will, with the agreement, extend the existing cooperation in North Vietnam to include the new port project in Dinh Vu, which is currently under development. When fully finished, the port will offer 3 berths with space for both container and bulk ships.

Erria Container Services (ECS) will collaborate with Vinalines to provide container repair services and other related logistics and depot services such as reefer monitoring, mobile repair, etc. ECS will also assist with commercializing barge operation from Dinh Vu to other ports and ICDs in North Vietnam, which ECS has experience with from South Vietnam.

ECS is currently in collaboration with Vinalines in the North-Vietnamese port of Haiphong, where ECS provides container repair and maintenance services to shipping lines and leasing companies.

Mr. Henrik N. Andersen CEO Erria A/S  
Mr. Le Quang Trung, deputy General Director Vinalines  
Mr. Anh Le Son Chairman of Vinalines  
Mrs. Anne Steffensen CEO Danish Shipowner Association
